PIANO FORTE TUNING AND REGULATING.

THE SUBSCRIBER, having engaged the services of Mr. E. T. HURLBUT, a competent and experienced tuner, is now prepared to attend to all orders with which he may be favored. The following testimonial to Mr. Hurlbut's capability is from the director of The celebrated Germania Musical Society

AGO March 27, 1855.

It is with much pleasure that I commend Mr. E. T. Hurlbut as a Piano Forte Tuner and regulator. To say that he is an excellent tuner, would not be doing him justice, for I can without hesitation say that he is capable of tuning a Piano as near to perfection as it is possible for a Piano to be tuned; but the greatest recommendation for him is the unusual length of time which his Pianos remain in tune. I have never, either in Europe or America, seen a man whom I would so cheerfully and with so much confidence employ to tune or regulate a Piano Forte as Mr. Hurlbut, and as cheerfully recommend him to all who want Pianos tuned.

CARL BERGMANN.

All orders left at the subscriber's Music Store will be promptly attended to.

NOTICE TO ICE CONSUMERS.

THE UNDERSIGNED, the oldest ICE trader in the City of Milwaukee, would inform the Public that he, as usual, will cut his Ice in the neighborhood of the Harbor, in order to procure the clearest and best Ice; and also that he will place around the holes which he cuts in the Ice, blocks of Ice as a fence, that everybody may be warned from danger. The cutting will commence about the First of January.

If the Common Council will appoint an overseer, I should have no objection, and I would even pay the expenses, should it be required.

I am confident that the Public will appreciate my endeavors to serve them with the best Ice, at the same time guarding them from danger.

The Widow Bedott, or "The Last Leaf."

SLIGHTLY ALTERED FROM O. W. HOLMES.

I heard of her before
That she made each reader roar
With her fun;
That the laugh each page increased,
From the first until we ceased,
Having done

They told me that the grin,
From the moment I'd begin,
Would be broader—
And that snicker, scream and laugh
With each added paragraph
Would be louder!

At last—I bought the book;
And a leisure hour I took
To peruse it;
My mouth expanded then,
Insomuch that ne'er again
Can I use it!

From ear to ear 't spread,
Circling half around my head,
And my jaws
Are as open now as sin,
In that fixed eternal grin,
From this cause.

"I know it is a sin,"
For me to laugh and grin
At "the Deacon!"—
At his "rheumatiz an' pain,"
But no mortal could refrain,
As I reckon.

"Priscilla" bright and fair!
Queen of widows—may no tear
Dim your lot!
And may "Shadrack," called "the wise,"
Prove as precious in your eyes
As BEDOTT.

JUDGE KANE UPON PASSMORE WILLIAMSON.

have excited the profoundest indignation and alarm. The Publishers believe, therefore, that this amply attested and clearly drawn record of what judges have done, will lead the people to see what, if unchecked, judges may still do.

Christadoro's Hair Dye still Triumphant!

CONTRAST the tints brought out in the hair by Christadoro's matchless revitalizing Hair Dye, and those produced by application of the burning fluids ordinarily sold as Hair Dyes, you see at once that the color is natural in one case, unnatural in the other, and the simple reason is that Christadoro's is the ONLY preparation which by its exact chemical combination operates on natural and immutable principles. Made, sold and applied (in 10 private rooms) at Christadoro's, 6 Astor House, Broadway, N. Y. Also for sale by the principal Druggists and Perfumers throughout the country.

The most Popular Collection of Church Music EVER PUBLISHED IN THE WORLD!

THE NEW CARMINA SACRA.

BY LOWELL MASON.

MORE than four hundred thousand copies of the Carmina Sacra have already been sold. It has been used more extensively, more generally, for a longer time, and with more satisfaction than any other collection of Church Music. It has done more for Congregational Singing in America, than any one agency. The majority of those tunes which are constantly used and loved all over the land, are from this book.

Our edition of the New Carmina Sacra has been carefully revised, the less valuable matter having been omitted, and its place being filled by the most popular tunes from the author's other works. Entirely new and attractive Elements of Music, Exercises, &c., are also introduced. In short, the New Carmina Sacra is now in a most complete and permanent form. Though choirs may have any and all other books, they are not fully furnished for service without a supply of this book. As a text book for Singing Schools, the hundreds of thousands who have used it, appreciate its great value. For sale by book-sellers generally.

An address was adopted to the people of the United States, closing with the following propositions:

We therefore declare to the people of the United States as objects for which we unite in political action:

1 We demand and shall attempt to secure the repeal of all laws, which allow the introduction of Slavery into Territories once consecrated to freedom and will resist by every constitutional means the existence of Slavery in any of the Territories of the United States.

2 We will support by every lawful means our brethren in Kansas in their constitutional and manly resistance to the usurped authority of their lawless invaders, and will give the full weight of our political power in favor of the immediate admission of Kansas to the Union as a free, sovereign and independent State.

3 Believing that the present National Administration has shown itself to be weak and faithless, and that its continuance in power is identified with the progress of the slave power, to national supremacy, with the exclusion of freedom from the territories, and with unceasing civil discord, it is a leading purpose of our organization to oppose and overthrow it.

It was ordered that the proceedings of the Convention be published in pamphlet form. The Convention then adjourned with nine cheers for Freedom and Republicanism.

WASHINGTON'S BIRTHDAY AT CINCINNATI.—The celebration at Cincinnati on the 22d of February, was a very brilliant and successful affair. A vast number of strangers were attracted to the city by the promised festival, and the streets during the day were densely crowded with people. Quite a number of uniformed companies from abroad were among the guests of the occasion, and conspicuous among them were the Chicago Light Guard, the Baltimore and Cleveland Greys, the St Louis National Guard, the Cleveland [illegible] Artillery, Cumberland Continentals, and others. The procession besides the military, embraced representatives from all the trades of Cincinnati, the civic and religious societies &c, and was nearly four miles in length. It far exceeded in splendor any pageant ever seen in that city. In the evening the military companies and their guests sat down to a grand banquet at the Burnet House, some 800 persons being present. The Cincinnati *Commercial* says:

Flags of union were scattered all through the procession, flags and streamlets waved with [illegible] numbers, and banners with various devices and [illegible] were carried by the different Societies. [illegible] flags were carried by every individual in the trade associations, giving to the whole a gay and brilliant appearance. It was an index of our population and of our country. All classes, the Protestant and the Catholic, the native and the foreigner, German and Irish, Jew and Gentile, united to do honor to the Father of our Country.

WESTERN BONDS AND STOCKS.—The New York [illegible] of Saturday, [illegible], reports the following sales: [illegible] shares Milwaukee and Mississippi R R [illegible]; [illegible] Wisconsin and Lake Shore R R [illegible]; [illegible] do Fox and Wisconsin Improvement Company, 81. The *Tribune*, in its money article says:

In Railroad Bonds the business is not large, [illegible] there is considerable doing at private [illegible], including a portion of $200,000 of the [illegible] bonds of a Wisconsin Railroad [illegible] of [illegible].

THE STATE OF THE CANVASS.—The article in [illegible] paper copied from the Madison *Journal*, contains the proof of the outrageous frauds practised in the [illegible] to give Mr Barstow a [illegible] to the high office which he has [illegible] [illegible] such thing be, and not call down upon the heads of their perpetrators and abettors the [illegible] indignation of the people, and the [illegible] penalties of the law!

[illegible] Judge John W Edmonds has written a letter which is published in the New York *Evening Post*, in which he avows he has embraced the principles of the Republican party.

Manufactures, Business and Water Power of Neenah.

NEENAH, Feb 23 1856

Messrs Editors:—As your correspondent A H B, in his account of Neenah and Menasha has not designated any public building [except the brick school house] as being in Neenah, and has designated all the principal Manufactures, Hotels and Churches as being in Menasha, I wish to let the public know what manufactories and other improvements we have in Neenah, independent of any other town, which I will enumerate as follows:

Three Flouring Mills—2 with 2 run and designed for 4 run stone, and 1 with 2 run stone [Empire Mills.]

One Grist Mill with 2 run stone

One Double Saw Mill, capable of manufacturing 10 000 feet lumber per day

One Shingle do

One Lath Machine—2 large Cabinet and Chair Factories

One Planing Mill—1 Stave and Barrel factory

One Sash and Blind factory—1 Foundry and Machine shop,

One Wool carding factory—4 Blacksmith Shops

Three Waggon and Carriage Shop

Five Shoemaker Shops

Three Tailor Shops

Two Jewelry Shops

Three Hotels (including Weeden's brick Hotel)

Five large Dry Goods and Grocery Stores

Nine Grocery and Provision Stores

Two Drug and Book Stores

One Boot and Shoe Store

One Milliner Shop

One Bank (Winnebago Co Bank)

One fine brick School House 3 stories high

One large Warehouse, 2 stories high

One Church edifice, built of brick, 35 by 50 feet, with steeple and bell, occupied by the Congregationalists

One Church edifice, built of wood, 41 by 62 feet, with steeple, and designed for a bell of 1600 pounds weight next spring, occupied by the Presbyterians

The Methodists also design erecting a large house of worship next season and also the Welsh people contemplate building a Church next summer

There are also in process of erection

One Grist Mill, with 2 run of stone

One Saw Mill

One Shingle Mill

Besides these there are a number of stores and private dwellings already contracted to be built early next season

The above Flouring Mills or their proprietors pay on an average about $1000 per day for grain, besides running nearly one half of the time on custom work

Farmers come in here with their grain and produce from a distance of about 50 miles, because they say it is the best market of its size this side of Milwaukee—they also say that they get better yield and better flour out of their wheat than they get in most of the steam mills

The amount of Dry Goods and Groceries that will be sold here during this year will not fall much short of $200 000, and undoubtedly will increase one half in another year

As to our water power, every unprejudiced eye can see that three fourths of the water that passes from Lake Winnebago flows through the Neenah channel. The lock and canal, that are already completed on this side, will be used next season for the passage of steamboats and other craft

JUSTICE

[The above communication came to us, written on *both* sides of several sheets of paper. We have, at some trouble, made room for the material portions, omitting only sundry controversial passages.—*Ed Sentinel*]

WESTMINSTER REVIEW.—We have received from the publishers, LEONARD SCOTT & CO, 79 Fulton street, N Y, the January number of the above publication. The contents are as follows: German Wit: Heinrich Heine, The Limited Liability Acts of 1855, The House of Savoy, Russia, and the Allies, Military Education for Officers, Athenian Comedy, Louis and Lion Hunting, Letter from Dr William B Carpenter, Contemporary Literature

Price $3,00 per annum

WHAT DOES IT MEAN.—There is not a room, shanty, garret, or cellar, to be had at any price in the village, and we doubt not 200 dwellings could be let to good advantage in a few days.—Real estate is 50 per cent higher than last year —*Waukesha Democrat*

This is the cry all over the State. Our cities and villages are full of new comers seeking for stores and dwellings, and the country is receiving like accessions to its population. Wisconsin is the Land of Promise to all emigrants from the Eastern States and from the Old World, and it depends only upon themselves to make it also the Land of performance

SUCCESSOR TO JUDGE DOOLITTLE.—The name of Judge SPOONER, of Walworth County, has been suggested as a fit successor to Judge DOOLITTLE on the bench of the First Circuit. Judge SPOONER discharged the duties of that office very acceptably, some years since, and he would fill the post well

"DIAMOND CUT DIAMOND."—Fyler (who murdered his wife, near Rochester, N Y) was to pay $4,000 to his counsel if they got him clear. They put in the plea of insanity, and saved him. They sue for the money and he pleads insanity

POPULATION OF KANSAS.—The Kansas correspondent of the Missouri *Democrat*, who has visited every portion of the Territory, sets the population down at 60,000

CONCLUSIVE EVIDENCE OF FORGERY.—Another interesting feature has been discovered in the supplementary returns, upon the strength of which the certificate of election was given to Barstow. The counsel for Mr Bashford, on an inspection of them in the Secretary of State's office, last Saturday found that the returns from Spring Creek, Polk County and Bridge Creek, Chippewa County—places separated by fifty or sixty miles of uninhabited wilderness—were written not only on the same kind of paper, *bearing the same stamp, but* UPON THE TWO HALVES OF ONE SHEET OF PAPER. There is unmistakable evidence that the Spring Creek returns were written on one page and the Bridge Creek returns on another page of the same sheet, which was torn in two probably after the forgery was completed. The paper did not tear exactly straight and the indentations on the Spring Creek document have corresponding points on the Bridge Creek document, *the torn edges exactly fitting!* What renders the matter still more significant, the paper is said to be of the same stamp that has been used during the past year about the Capitol. This is evidence of forgery that cannot be gainsaid. A man might tear sheets of paper apart from one year's end to another and no two pieces would fit together unless they were those that had been originally joined. Thus it is that villainy circumvents itself. In the trepidation that attends the commission of crime, there are almost always little oversights of this kind, which in the end, are discovered, and are confirmation strong as holy writ of damning guilt.—*Madison Journal*

RACINE COLLEGE ENLARGEMENT.—It is found, so prosperous has been the Institution, that until new College buildings are erected, no more students can be accommodated in Racine College. Many applicants for admission have been forced to go elsewhere, the present building being filled to its utmost capacity. In view of these facts the Trustees of the College had a meeting on Wednesday evening of last week, and, after talking the matter over, resolved that, so soon as the necessary sum was subscribed, they would go on and erect, in accordance with the original plan, the main building, of which the present is to form one of the wings. One of the Trustees proposed to give toward the erection one-twelfth of either $12,000 or $20,000, as the cost may be.—Others of the trustees propose to give sums of from $500 to $1000, so that we can see no difficulty in raising the requisite amount, and hesitate not to say that ere the Fall Term commences the buildings of Racine College will be capacious enough to accommodate, if not all who seek to enter, at least double the number of those at present in attendance at the Institution.—*Racine Democrat*

Sights and Scenes in the City—Costumes and Degrees—The Turk—Servian—Persian—The Arab—The Female Soldier—The Hamals—The Turkish Ladies and Dress—The Little Fairy Bride—The Dogs and their Enactments

(CONCLUDED)

CONSTANTINOPLE, Nov 15, 1855

They are not large in stature, have thin, pale features, large black lustrous eyes and black hair. Their dress, perhaps, heightens the natural paleness of their countenance. It consists of a *yashmak* which is a long piece of white muslin, arranged in such a manner as to cover all the face and head except the eyes and eye brows. In former times they wore them very thick, so that nothing could be seen but the eyes, but now the young and beautiful especially, wear them so as to display their jewelry, which is mostly on their heads, and being so thin, too, that their complexion and features are seen almost as well as if they had nothing on. The outer dress is a large square cloak called *feragee*, reaching to the ground, with square cape and large open sleeves. Among the richer people they are made of broad cloth but among the poorer classes, of some thin woolen goods, and are generally of bright gay colors. The house dress consists of full trowsers (*Shalwar*) which are made of some fancy colored silk, and another garment (*entari*) which is a tight jacket, fitting the figure closely with a long train behind, dragging a yard or more on the floor, and two trains in front, which when there is no particular company present they gather up into a rich girdle. The two front trains consist of rich Persian, or Cashmere shawls. The sleeves are tight down almost to the wrists, when they open and hang gracefully down, displaying the sleeves of the richly ornamented silk shirt.—They wear the small delicate yellow slipper familiar to all. When walking they have an outside slipper into which the small dainty foot is placed some two or three inches, and what holds this external one on I could not tell. They wear their jewels on their heads and hands and are more fond of diamonds and brilliants than any other stone

The above description applies of course, to the wives of the Pashas, the concubines of the Sultan and the higher classes generally. Very few are ever noticed walking. They generally are seen riding in the Turkish carriage called the *arabah*, or reclining in some of the fairy and richly decorated boats that glide over the Bosphorus and Golden Horn, called *Caiques*. When seen in either of these conveyances their posture is one of voluptuous ease, the limbs being left entirely to their own flexibility of motion, sometimes assuming attitudes that, according to our taste and rules of etiquette, would be offensive. But living as they do in a sort of dreamy existence they know nothing beyond the small circle in which they move and look upon the world outside as merely made for their toys and playthings

The yashmak is never removed when out of doors. I never saw but one who had none on and as I was afterwards informed, she must have been under thirteen years of age and belonged to the Sultan's harem, for that previous to that age they are not worn by the ladies of that establishment. This was a beautiful girl, or mere child rather, dressed in rich and elegant style, seated in one of the finest of the Sultan's arabahs and drawn by a splendid span of horses. In front of and facing her was a great lubberly black eunuch, who, I should think, would weigh 225 pounds, in the rear were two other black eunuchs on finely caparisoned horses, each in uniform with swords by their sides. In front and along the sides of the carriage were handsomely dressed mounted officers, say twenty or thirty in number, each one in addition to his side arms carried a small polished rifle at an angle of about 45 degrees in the right hand, while they held in the left the bridle rein. The saddle was so fixed that the breech rested in a pocket. The men as well as horses being about the same corresponding size, and each rifle having the same poise, it gave a perfect uniformity in appearance to the whole troop. As this brilliant and glittering cavalcade dashed along past me I thought it was as imposing and as curious a sight as I ever saw. The young girl was probably a late present to the Sultan and it might probably have been her first debut to the world. Poor, beautiful child, thought I, it is well that the spirit of christian religion and the light of a refined education have never entered your soul and mind. A few years will pass away and the smile that now lights up that youthful face will change to tears and the heart that now throbs with such strange emotions at seeing a panorama more strange to her than to me, will ache to its very core

But it is about twelve o'clock and we are in the vicinity of some mosques. Hark and hear those strange sounds that come from the air above. It is the voice of the muezzins who are calling from the top of the six hundred minarets of Constantinople the faithful to prayer. These muezzins stay up there for one half hour and in a loud voice, half sing and half beseeching, give notice that it is the hour for devotion, and closing with "La Allah illah Allah Mohammed resoul Allah"—There is but one God and Mohammed is his prophet

One of the most remarkable features about the city is the vast number of gaunt, lean, wolfish, red looking dogs, or rather living dog skeletons lying in the streets around the churches and mosques, in the cemeteries and in fact under ones feet wherever he goes. They are frequently seen lying in the middle of the street, covered with flies, and look so much like dead dogs that one could hardly tell the difference. By the Turks they are very much revered but all other nations kick them about, maim and otherwise abuse them. They belong to no one in general, and live in distinct districts, where they burrow out holes in the ground. The city makes some provision for them I believe, for I frequently saw men in different parts of it, having the appearance of being fit for no other occupation with long poles on their shoulders, on which were notches, and from these were suspended the offal procured at the butcher's slaughter houses. These men are called Jiguer [illegible]. In times past I have no doubt that they have consumed human bodies, where many a poor fellow has been suddenly dispatched by the poignard or knife in some of these dark alleys and streets in the dead of night

Lord Byron thus graphically alludes to them in his siege of Corinth. Their appearance and character is just the same now as then

"And he saw the lean dogs beneath the wall
Hold o'er the dead their Carnival,
Gorging and growling o'er carcass and limb
They were too busy to bark at him!
From a Tartar's skull they had stripped the flesh
As you peel the fig when the fruit is fresh
And their white tusks crunched o'er the whiter skull
As it slipp'd through their jaws when their edge grew dull,
As they lazily mumbled the bones of the dead,
When they scarce could rise from the spot where they fed,
So well had they broken a lingering fast
With those who had fallen for that night's repast"

But what is more singular than all, these stupid animals, being left to themselves, have, for the purpose of establishing justice among dogs, agreed upon certain fundamental principles, among which is the following. That a dog born in a certain district shall remain in that district and not be entitled to forage out of it. This wholesome provision has been recognized from time immemorial by a large majority of them and particularly so among the better classes

But dogs are like men and will occasionally break the best and most wholesome laws. But wo to the unlucky dog that is enticed away by bad companions or in the hopes of finding titbit pieces of meat and bones full of marrow that he has no right to. The moment he is seen, all the other dogs unite in a chase after him and from their bites and castigations he sets up a frightful howl. No alibi or insanity is ever recognized as a justification or excuse

Adjoining the Hotel DeParis, where I was stopping, there was a private mansion owned by a Turk, who, I should judge, lived in a very good style. In front of his house was a pleasant yard set out with shrubbery and enclosed with an iron rail fence. The front was perhaps thirty feet. In this little plot were six dogs always to be seen. Sometimes one or two would be out in the street in front, to which they had a right but only on excursions of pleasure and to hunt up food. I used to be around to see them administer justice, by following a dog clear home if he ever halted a moment on the premises in front of them and occasionally one of their own number would come howling in, followed by a half dozen others in complete chase. So much on oriental dogology

Burglary at North Prairie.

NORTH PRAIRIE, Feb 27

Messrs Editors:—On Monday night the 25th inst, the Station Store at North Prairie, belonging to James G Ladd, was broken into. Fortunately before the thief had time to get anything of consequence, he was discovered by a woman who had occasion to go to the store, at that time of night (nearly midnight). The fellow, finding his game blocked, gave a yell and made off

Deaf and Dumb Asylum.

MESSRS EDITORS:—Will you correct a statement going the rounds of the papers that Prof Jenkins, principal of the Deaf and Dumb Asylum at Delavan, has been removed and myself appointed principal of that institution. This erroneous statement probably arises from the fact that Mr Jenkins held two positions in said Institution, the one as *trustee* and the other as *principal*.—The office of trustee he resigned, and I was appointed in his place. The board of trustees soon after removed him from the post of principal, and his successor has not yet been appointed. Having no acquaintance whatever with the education of the Deaf and Dumb, I had rather not be advertised through the State as principal of such an Institution

HOTEL IMPROVEMENTS.—We learn that Mr A A Guy is about to make a very important addition to the Hotel facilities so greatly needed in our rapidly growing city

He intends to build a basement under the three buildings owned by him on Pennsylvania Avenue (and for the last year occupied by Dea Brown as a Temperance House) to correspond with the new grade of the street. The whole establishment is to be remodeled and finished in a more convenient and comfortable manner, and 60 feet more front added on the east. It is said that the difficulty of obtaining brick, alone prevents his building the entire structure of that material the coming season

Mr G has also in course of erection three very comfortable dwelling houses on North, near the corner of Center Street which will be ready for tenants early in the spring. The scarcity of such tenements in the city, will suggest to all who are in want of dwellings the propriety of securing one of them in advance, for the demand for private residences is destined to be still greater.—*Sheboygan Lake*

MONEY LOST IN THE MAILS.—During the past few weeks we have heard frequent complaints that money has been lost in transitu through the post offices of this State. Between here and Milwaukee, several of our Merchants have lost monies and drafts during the past month. The whole post office arrangement is a nuisance which the common sense of the people should abate at the earliest possible moment. It monopolizes the whole business of our correspondence, and with its unwieldy government machinery, managed by political mudheads, seeks to do what private enterprise is only competent to perform. Government gives us no security for the performance of the service, nor remedy when her rascally agents steal our money. The whole machinery is a rotten old institution to be got rid of, not patched up.—*Badger State*

THE WOLF RIVER PINERIES.—The past winter has been unusually favorable for the operations of lumbermen on the Wolf River and its tributaries. It is estimated by those familiar with the business that the number of logs cut and in readiness for driving on the breaking up of the streams in the spring will far exceed that of any former season. Eighty millions of feet is considered a moderate estimate of the result of the winter's operations. Oshkosh is the market for almost all of this enormous quantity of lumber, and as its average value—in the log and manufactured—cannot be less than $8 per M, some idea of the extent and amount of this trade and its importance to our city, can be obtained.—*Oshkosh Courier*

WISDOM—PERHAPS.—It is said that many of the County Treasurers of Wisconsin will *neglect* to pay over to the State Treasurer, all their State Tax—or so much thereof as the State School Fund will probably amount to. They will so neglect or refuse in order to make sure of their school money—confidence in the management of affairs at Madison being so low as to suggest the *snatch game* in distributing the public funds.—The late discovery of a breach in the Treasurer's Department (Shanghai has corroborated,) will more than justify any shift that County Treasurers can invent to save the public money.—*Grant Co Herald*

LAND OFFICE AT MENASHA, WISCONSIN.—The books and papers of the late Land Office at Milwaukee, Wisconsin, having been received at this office

Notice is hereby given that we will be ready to receive applications for the entry of Government Lands remaining unsold in said District, on the 10th day of March next, at 9 o'clock, A M

NEW STAGE ARRANGEMENT.—The Railroad is now completed from Milwaukee to Waupun, and passengers come through from the former city to Menasha on the same day. The stages leave Fond du Lac on the arrival of the cars, at 2 o'clock, P M, and arrive here about 8. On the opening of navigation on Lake Winnebago, we will be within three days travel of New York.—What a fast country!—*Menasha Advocate*

For the benefit of the invalid portion of the community we extract the following from the Almanac of Dr C M Jackson proprietor of *Hoofland's German Bitters* hoping it may induce a trial of them
SHEFFIELD Ill, March 19, 1855
J C NILES says
"I expect to sell great quantities of your bitters this year. Many of my customers speak very highly of its good qualities, having proved itself most an *excellent Fever and Ague preventative & great purifier of the blood*, and the very best thing on record to aid digestion and create a good natural appetite. In short, I am sure it is one of the very best medicines known for family use, being safe and pleasant for any one to take"
C L D CROCKWELL says
ANAMOSA, Iowa, May 1, 1854.—The Bitters give unbounded satisfaction to all that have used them and I do and can always recommend them to all that are afflicted. They have cured many cases of Dyspepsia, some of them where hundreds of dollars have been spent for remedies which afforded no relief, and were considered incurable until they used the Bitters." Letter from Hon. John Minor Botts, of Virginia.
Richmond, July 9th, 1855
Messrs W S Beers & Co
Gentlemen:—Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of CARTER'S SPANISH MIXTURE for that almost incurable disease, Scrofula
Without being disposed, or deeming it necessary, to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine on a member of my own family, and under my own observation and superintendence after the skill of the best physicians had been exhausted, and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady
I do not mean to say that it is adapted to all constitutions or that it will afford the same relief in all cases, for, of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or control. Respectfully yours,

WE ARE NOW offering for sale at the south [illegible] extremity of the city some of the most [illegible] situated sites for residences to be obtained in Milwaukee. Extensive views of the bay, harbor and surrounding country may be had from many of the lots, and for health, purity of air and water, and general eligibility of location, are not equalled in the city. A portion of these lots are rendered still more desirable from the fact of there being on them a great variety of the choicest fruit trees many of which, having been planted by a former proprietor, have now attained their full size, and are annually earning large crops of the most delicious fruit.
Strangers and others desiring a location for a dwelling possessing the advantage above named, may learn further particulars by applying to

DAILY SENTINEL.

Milwaukee, Thursday Morning, Feb. 28, 1856.

CITY MATTERS.

Circuit Court.

Anthony Maher, tried for larceny, was acquitted. Chas. Owen was then placed on trial for stealing some tools, &c., from Cummings & Goodrich's shop, in the Third Ward; [illegible] in progress. Another motion was filed for a change [illegible] in the case of the State vs. John B. Spencer, indicted for murder.

In the case of Charles Owen a strenuous effort was made [illegible] his acquittal, every subtlety the [illegible] of pleading was resorted to. [illegible] the Judge both clear and lucid, dispelled [illegible] the ingenuity of the counsel. The [illegible] returned to their seats with a [illegible]. There is another indictment against [illegible]. For such a boy as this a House of [illegible] is the place where he may be reclaimed, not the [illegible] the state has no right to derive a benefit [illegible] labor, without trying at the same time [illegible]. When such boys are sent [illegible] instead of a State Prison, we may [illegible] diminishing the crop of growing [illegible], but not till then. When will our [illegible] with a spirit of common humanity [illegible] of one? They have the pow- [illegible] and every humane feeling [illegible], not a well disposed citizen [illegible].

Police Court, February 27.

[illegible] one case in the Court yesterday—taking [illegible] assault and battery, and the adjourn- [illegible] morning. The warrant was issued [illegible].

THE SPENCER MURDER CASE.—In the case of [illegible] pending in the Circuit Court, motions [illegible] being filed to obtain a change of venue [illegible] of John B. Spencer, *alias* Sleepy John, [illegible] county, where an acquittal, no matter [illegible], would be certain. The [illegible] the petitioner, Spencer, "fears [illegible] will not receive a fair trial in this [illegible] now pending, to-wit: In the [illegible] on account that the Judge thereof [illegible] is prejudiced against the peti- [illegible] said cause, and therefore prays [illegible] as the law provides."

[illegible] the motion, assigning his reasons for [illegible]. That there was no law applicable to the [illegible] of 1849, under which the motion had been [illegible] cases, the motion must be de- [illegible].

[illegible] has been filed, and not yet decided, in [illegible] the "murder is said to have been commit- [illegible] County, at the house in question. That in [illegible] they have been much talked of and very se- [illegible] by the public and the press, and they have [illegible] verily do believe a great prejudice raised [illegible] in the minds of the people, so much so that [illegible] represent the fact to be that they can- [illegible] have a fair and impartial trial in the County of Milwaukee, and therefore ask a change of venue in said [illegible]."

[illegible] which the petitioner substan- [illegible] the others.

[illegible], the second we have noticed, comes [illegible] under the statute—"Of the change of venue in Criminal Cases," Chapter 147 Revised Statutes, the first [illegible] which provides that "if it shall appear to [illegible] of the Court, *by affidavit*, that a fair and impartial trial cannot be had in such county," &c., [illegible] direct the accused to be tried in some adjoining county, where a fair and impartial trial can be had. [illegible] provides that if the defendant cannot give bail, if [illegible] bailable, a warrant shall be issued, direct- [illegible] the sheriff, commanding him safely to convey the [illegible] the jail of the county where he or she is to be [illegible], there to be safely kept by the jailer thereof un- [illegible] by due course of law. Sec. 5 provides [illegible] may award such change of venue when [illegible] *promote the ends of justice.*"

We have placed these motions before our readers to [illegible] upon the course now being pursued, for the only [illegible] the acquittal and discharge of a man [illegible] having deliberately killed a fellow creature, [illegible] no doubt—not a shadow of a reason for [illegible] he killed him in cold blood and without [illegible]. We have also cited the law applying to [illegible], and leave the public to judge and form their own [illegible].

We have not the slightest desire to prejudice or fore-judge the case of any man; but the living friends of the murdered, have claims upon the public press equal to the murderer.

NEW BUILDINGS.—We learn that the contract [illegible] Methodist Church on Jackson street was [illegible] for $21,000. It is to be a handsome brick structure, substantial and capacious. Mr. G. SOUTHWELL, Jr. [illegible] Carpenter's work and J. ROBERTS the Masonry. Mr. [illegible], office in the Juneau Block, is the Architect. He furnishes the plans and superintends the work.

Mr. [illegible] showed us yesterday the plans and elevation for the large and elegant brick block which Messrs. MITCHELL & OGDEN intend erecting on the South West corner of Main and Michigan streets. Mr. JAMES ALLEN has the Mason, and G. SOUTHWELL Jr. the Carpenter's work.—The building will front 120 feet on Michigan and 54 on Main street. The basement will be arranged for a first-class Restaurant. On the ground floor there will be five stores fronting on Michigan street, and the office of the Wisconsin Marine and Fire Insurance Company Bank on the corner. In the second story there will be 14 well lighted, airy and handsome rooms for offices, with wide halls. The third and fourth stories will be thrown into one large and elegant Hall, 116 feet by 60, and 27 feet in the clear, with [illegible] rooms, &c. There are to be two entrances to the building, one on Main, the other on Michigan street. The [illegible] is to be of the best Milwaukee brick; the cornices, lintels, balustrades, &c., all of the same material. The [illegible] of the building is in simple taste, without any extra ornament, and appropriate to the business purposes to which it is to be devoted. It will form a fitting counterpart to the magnificent Hotel which is to occupy the opposite corner. Both buildings are to be commenced as soon as the weather permits, and the stores in the block of MITCHELL & OGDEN will be ready for occupancy by November. Other extensive improvements, in the same neighborhood, are contemplated.

MILWAUKEE FEMALE COLLEGE.—The annual meeting of the Trustees of the Milwaukee Female College was held on Saturday evening last, and resulted, as already stated in our paper, in the choice of the following officers:

I. A. LAPHAM, President.
O. H. WALDO, Vice President.
E. D. HOLTON, Treasurer.
R. MENZIES, Secretary.
Auditing Committee—Comstock, Medbery, Rogers.
Executive Committee—Lapham, Waldo, Lynde.

Mr MENZIES, declining to serve any longer as Secretary, a committee was appointed to select a suitable person for that office. The reports of the Secretary and Treasurer were received and placed on file. A Committee was appointed to negotiate with Mr. Gilman for the purchase of the two lots in the rear of the College Buildings.

The following report was submitted by the Auditing Committee:

MILWAUKEE FEMALE COLLEGE,
[illegible] In account with Edward D. Holton, Treasurer.

Feb. 21. Total receipts from R. Menzies,		$6,479 20
Total disbursements as per charges drawn by R. Menzies, hereby accompanying	$5,423 82	
Balance on hand,	1,055 38	
		$6,479 20

We have examined the accounts of the Treasurer and [illegible] agent, and find them to agree. We also find proper vouchers for all monies paid out as per statement in their books.

W. R. MEDBERY,
CICERO COMSTOCK,
Auditing Committee.

Milwaukee, Feb. 21, 1856.

The College is now in a sound condition, financially, and affords the means and facilities for obtaining an excellent education.

GEORGE SUMNER.—Our citizens will all be glad to hear that Mr. SUMNER has so changed his arrangements that he will give another lecture in Milwaukee. His subject next Saturday evening will be "*France and Louis Napoleon*," a subject on which no American can be more at home than Mr. SUMNER, and we may expect something [illegible] as well as full of information. Of course the Hall will be crowded.

We learn that next week we are to have Mr. CHAPIN, and after him, O. W. HOLMES, so that lecture-goers may look for something good the coming month.

DRAMATIC READINGS.—MRS. WEBB, a colored lady of remarkable personal attractions and varied accomplishments, propose to read at Young's Hall, on Monday evening next, "*Uncle Tom's Cabin*," as dramatized by the authoress, Mrs. HARRIET BEECHER STOWE. Mrs. WEBB brings with her the most satisfactory testimonials, and the presses in the Eastern cities, and in Buffalo, Cleveland, &c., where she has given these Dramatic readings, speak in the highest terms of her talents. We cannot doubt that the proposed entertainment will be well received in our city.

A CASE FOR THE CITY ATTORNEY?—Immediately on the side-walk and extending over on either side of it, on West Water street, just north of the Watertown R. R. depot, stands now and has stood for six weeks a freight car. Ladies and others passing that way have to go round it, up their ankles in mud. The *side walk is obstructed.* Whose business is it to clear it?

IMPROVEMENT IN PAINTING.—Mr. F. M. LANE, at 22 Spring Street, invites all who want a permanent and handsome article of paint put on the woodwork of their houses, to give his Glass Paint a trial. He thinks it superior to anything now in use. See his advertisement.

DONATION VISIT.—A Donation Party, for the benefit of the Rev. MILTON ROWLEY, Pastor of the Spring St. Methodist Church, will be held *this* evening at the Armory of the Light Guard. A general invitation is extended to all.

JUVENILE CONCERT.—Mr. PAY will repeat this evening at Young's Hall, the very successful "Cantata," which attracted so large an audience and elicited so much applause last Monday.

ST. CLAIR HOTEL.—The landlord and owner of this well known house is building an addition to the former house, which, when completed, will make it one of the most spacious Hotels in the city. It is situated near the foot of Huron street, in close proximity to the Steamboat Piers, and is one of the most convenient stopping places for passengers landing or intending to depart by Steamboat.

GIRL WANTED.—A girl that can cook and do general housework, can find remunerative employment in a family of two to three persons, by calling at the first house South of Spring street, on Third street, West side.

ST. JAMES' CHURCH.—This Church has lately been refitted and repainted, in neat style, by Mr. F. M. LANE, who handles the brush with skill and taste.

GROCERIES, &C., AT AUCTION.—ROONEY has an important Warehouse Sale, at 10 o'clock this morning, to which he invites the attention of the public.

SANDS & CUMMINGS'
NEW & IMPROVED PATENT BRICK MACHINE
FOR TEMPERING THE CLAY, MOULDING AND PRESSING
Six Bricks in five Seconds
Completed at a Single Operation,
BY STEAM, HORSE, OR WATER POWER.

IN presenting this wonderful machine to the public, the patentees and proprietors wish to make no vain boast of its abilities, or assert in its behalf a single word which cannot be substantially and satisfactorily maintained, and they appeal to the practical brick makers of our country with confidence, when they add, that such a machine is in positive and absolute demand. The business of brick-making is now engrossing great attention, and the rapid growth of our land seems to show that our present facilities will hardly meet a fraction of the demand for the useful articles which it is proposed to furnish by this new means of manufacture. In New England and the Great West, the supply has not been adequate these last ten years and the consequence has been the prices of bricks have been exorbitant, and that most especially during the very last year it has been almost an extortion.
SANDS & CUMMINGS' Brick Machine is built mostly of IRON is about four feet square, and five feet high in the rear.—When it is worked by horse-power, with four or five hands employed, (no more being required,) it turns out from fourteen to eighteen thousand bricks per day of ten hours. It is successfully operated by any ordinary laborers, who, by it, become fully competent to the most intelligent and experienced brick-makers.

CERTIFICATES.

WASHINGTON, December, 27, 1853.
DEAR SIR:—I have examined with much care and interest your Brick Moulder and Temperer, on Capitol Hill, in this city, and cheerfully bear testimony to its excellence. I consider its simplicity of construction, its rapidity of execution, and its durability, to be apparent to every observer, and I can say that the experience of twenty-five years in the manufacture of bricks, has given me good opportunities of judging closely in this matter. I think your machine is unrivaled as a Brick Machine in the United States.
Respectfully, yours, S. HAYDEN
Practical Brick-Maker, at Palmyra, N. Y.
H. SANDS, Esq.

WASHINGTON AQUEDUCT OFFICE, Washington, Nov. 23.
SIR:—I was present, yesterday, at an exhibition of Sands & Cummings' Brick Machine. It appeared to me to be conveniently arranged, to be simple in its construction, not likely to get out of order, and it did its work quietly and effectually. I think it a very good machine.
M. C. MEIGS, Captain of Engineers,
In charge of Washington Aqueduct and Extension of U. States Capitol.
H. SANDS, Esq.

WASHINGTON, November 22, 1853.
SIR:—I this day had the pleasure of witnessing the operation of Messrs. Sands & Cummings machine for making brick, and must say that it performed much better than I expected. I can, therefore, recommend it to the public as a valuable labor-saving machine, as it tempers the clay and moulds the brick at the same time.
WM. P. ELLIOTT, Architect and Engineer.
To. H. SANDS, Esq.

WASHINGTON, November 23, 1853.
I have witnessed the operation of Messrs. Sands & Cummings' Patent Brick Machine, and consider it unequalled in simplicity, and in the perfection of its results, by any machine of any class that has come under my observation.
CHAS. EVERETT, late of the Patent Office.

WASHINGTON, D. C., November 26, 1853.
It is with much pleasure that I am prepared to say, that having witnessed the operation of making brick, by a new patented machine, by Sands & Cummings, it by far exceeds my expectations. It is very simple in its construction, and sure in its operation. From my experience as a practical machinist and model maker, (having constructed several models for that purpose,) I believe it to be far superior to anything I have ever seen. It can be worked with certainty and great facility, by the most ordinary laborer, while it tempers the clay and moulds the brick at the same time. I would especially recommend it to all persons engaged in the brick business.
J. B. WOODRUFF.

GEORGETOWN, D. C., November 25, 1853.
Having witnessed the exhibition of Sands & Cummings' Brick Machine, on Capitol Hill, last week, I hereby certify that its work was very satisfactory and simple, thereby allowing it to be used by hands totally unaccustomed to it. I was much pleased with the machine in every respect.
ROBERT P. LODGE.

WASHINGTON, D. C., November 28, 1853.
H. SANDS, Esq.—*Dear Sir*:—I have this day witnessed the operation of Sands & Cummings' Patent Brick Moulding Machine, and am fully satisfied that it is not equalled by any machine for speed, or in the correctness of its work; and can therefore cheerfully and confidently recommend it to any person wishing to purchase a perfect machine. Yours respectfully,
JOHN BREES,
Practical Brick-maker, Wyoming, Syracuse Co., Pa.

WASHINGTON, March 21, 1853.
GENTLEMEN:—I take pleasure in recommending to the public your Brick Machine. Having seen one in operation in Memphis, Tenn., I immediately purchased the right to use one in Phillips County, Arkansas, believing that better brick could be made by them than by the old process, and, at the same time saving the labor of at least one-half of the number of hands required in the ordinary way of brick-making. Respectfully,
H. L. BISCOE.
Messrs. Sands & Cummings.
[Mr. B. first experimented with a dry clay brick machine, at a cost of several thousand dollars, which he set aside, and adopted in place thereof one of Sands & Cummings'.]

WASHINGTON, March 21, 1853.
To the Managers of the Metropolitan Mechanics' Institute:
GENTLEMEN:—I am under the impression that the Committee on Class No. 6, in which the machine deposited by Sands & Cummings—a Brick-making machine was embraced—recommended it as being the best machine offered, and therefore entitled to the highest award. As one of that Committee, I am of the opinion that it is the best machine now in use in this country for making bricks of *tempered* clay. I have seen the machine in use, of full size, and the *quantity* and quality or the bricks it produces are better than any others that have come to my knowledge. I am engaged in the brick business, and have searched much in all our principal cities for the most approved machines, and must say, that this machine is the very best I have seen or heard of; I, therefore, recommend the machine as worthy of the highest award that you can give to any machine at the Exhibition.
SAMUEL BYINGTON.

TROY, NEW YORK, September 15, 1853.
This certifies that I have been in the brick business, extensively, for seventeen years, and am employing twenty-two hands, and have this day witnessed the operation, in my yard, of Messrs. Sands & Cummings' Patent Machine. The Machine tempers the mud and makes brick at the same time. It is simple in it construction and not liable to get out of order, and can be worked with common borers, and makes good bricks, and is capable of moulding from 14,000 to 18,000 per day. I am well satisfied with the working of the machine. I have worked different kinds and take great pleasure in saying that this is the best I have ever seen, and in recommending the same to the public as being worthy their attention.
JOHN ARCHIBALD.

CAMBRIDGE, August 27, 1853.
This is to certify, that I have been engaged in making bricks about twenty years, and have seen and used different kinds of improved brick machines, and am now using them. I have this day witnessed the operation of Sands and Cummings' Patent Brick Machine, at Edmund Hayes' brick-yard, in Cambridge, Mass., and, in my opinion, it is most simple in its construction, and, at the same time possesses every requisite for durability; to the extent, that men laboring men can easily do all the work with the machine that is required of practical brick-makers. The machine tempers the clay by horse power, and, at the same time is capable of moulding 14,000 to 15,000 good bricks per day; and that it is best machine now in operation, and I take much pleasure in recommending it to all interested. GEO. W. WYATT.

CAMBRIDGE, August 27, 1853.
This is to certify that I have been in the brick business for thirteen years, and have seen the operation of Messrs. Sands & Cummings' Patent Brick Machine, in Mr. Edmund Hayes' yard, and, in my opinion, it is the best in use, and that it will make from 14,000 to 15,000 of good bricks per day, with horse power.
S. M. COFRAN, Putnam street.

BOSTON, March 22, 1855.
H. SANDS—Dear Sir:—This is to certify, that the Mechanics Brick Manufacturing Company have had in use in their yards during the past season some of your Patent Brick Machines, and the undersigned regard them the best machines for manufacturing brick that they have any knowledge of.
JOHN WILLIAMS, Pres't M. B. M. Co.

Terms, &c.

Machines will be furnished complete, (excepting only the sweep beam, which would of course be hardly worth the transportation,) with four setts of iron-bound moulds, for $500; and in ordering machines, parties should invariably send the dimensions of the bricks required to be made. *This should not be neglected.*
In sales of State, County or other rights, machines are sold at cost.
☞ The inventors have been asked often as to the size of yard, and position of kilns, and being anxious to impart every information to be derived from their practical knowledge, they respectfully submit the following:
For the most successful operation of one machine, the yard should be one hundred feet wide, and ninety feet in length, adding from eighty to a hundred feet in width for every additional machine, but never increasing the length of yard. The kiln grounds should extend from the head of the yard, so that the bricks being hacked, can be conveyed to the kiln sheds on a parallel line with the yard.
Bricks should be set into the kiln as soon as dried, and made by this machine they dry much sooner than in the usual mode of manufacture.

F. M. LANE'S
PERMANENT GLOSS PAINT.
Important Improvement in Painting!
A PERMANENT GLOSS PAINT for interior work has long been a desideratum. All paints prepared from Linseed Oil, will rapidly turn from the lightest and most opposite tints to the yellow color of the oil itself; the change being the more rapid as the paint is excluded from the full light of day.
The subscriber, after a sufficiently long experience in its use, can recommend it as the only Gloss Paint in which this important defect is effectually remedied. This beautiful paint can be applied of any color, from the purest white, resembling enamel or porcelain, to all the different varieties of tints, suitable for private dwellings, Churches, Hotels, &c., whilst in brilliancy and richness of surface it surpasses all other paints; it possesses superior advantages in retaining permanently even the most delicate colors with which it is combined.
Also, Plain and Ornamental Painting, decoration of Private Dwellings, Churches, &c., Sign and Fancy Painting.

GREAT FIRE!

TOLEDO, Ohio, February 1st, 1856.

THE DURFEE & FORSYTH MANUFACTURING COMPANY:

Gentlemen:—On the morning of the 29th ult., a fire broke out in our block, composed of nine buildings, of which ours is the centre. Our Safe was one of Durfee & Forsyth's manufacture, Rochester, N. Y., stood about the middle of our store, and was exposed to the most severe fire we have ever witnessed, from 3 until 9 o'clock in the morning. So intense was the heat that our stove, which was a large and heavy one, and which stood within about four feet of the Safe, was almost entirely melted down. When we had seen that, we came to the conclusion that the contents of the Safe were not preserved, but on opening it we were very agreeably surprised to find them all in a perfect state of preservation.

Respectfully yours,

FIRE INSURANCE COMPANY.

OFFICE IN MARTIN'S BLOCK, MILWAUKEE, WIS.

Capital over $165,000, in Cash & Premium Notes.

THIS COMPANY offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incompatible ease with which losses are settled. During the last five years, this Company have issued 2900 Policies, and made but three assessments, at a cost to the property insured, not exceeding two mills on the dollar.—Its business is principally confined to this State.

They have added to their stock of Tools a large Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principle.

They have always on hand a large stock of BRASS WORKS, such as GUAGE AND CYLINDER COCKS, OIL CUPS AND COCKS, and STEAM WHISTLES. Also TURTON'S FILES, which they will sell at the lowest cash price.

They are also Agents for EASTMAN'S PATENT STEAM GUAGES, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

EVARTS'

PATENT SHINGLE MILL

EVARTS & BUTLER,

PROPRIETORS & MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle width-wise relieves the saw, so that it may be ground thin on its edge, so as to cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of the best workmanship, easily worked, and not liable to get out of order.

TO THE MILLION!

READ AND JUDGE FOR YOURSELVE

PROFESSOR WOOD'S Hair Restorative is no doubt the most wonderful discovery of this age of progress, for it will restore, permanently, grey hair to its original color, cover the head of the bald with a most luxuriant growth, remove at once all dandruff and itching, cure all Scrofula and other cutaneous eruptions, such as scald head, &c. It will cure as if by magic, nervous or periodical headache, make the hair soft, glossy, and wavy, and preserve the color perfectly, and the hair from falling to extreme old age. We could give the testimony of more than one hundred thousand to the truth of every word we have written. See circular and the following:

CARLYLE, Ill., June 29, 1855.

I have used Prof. Wood's Hair Restorative, and have admitted its wonderful effect. My hair was becoming, as I thought prematurely grey; but by the use of his Restorative it has resumed its original color, and I have no doubt permanently so.

SIDNEY BREESE,
Ex-Senator United States.

VINCENNES, Ind., June 10, 1853.

Prof. O. J. Wood: Dear Sir—As you are about to manufacture extensively and vend your recently discovered Hair Restorative, I will state for whomsoever it may concern, that I have used it and known others to use it; that I have for several years been in the habit of using other hair restoratives, and that I find yours vastly superior to any other I know. It entirely cleanses the head from dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance, and all this without discoloring the hands that apply it, or the dress on which it drops. I would therefore recommend its use to every one desirous of having a fine color and texture of hair.

Respectfully yours,
WILSON KING

A gentleman of Boston writes to his friends in New Bedford, thus:

To your inquiries I would reply that when I first commenced using Professor Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years and it was very thin on the top of my head, and very loose and pulled out freely; but I found that before I had used the second bottle up (which was eight weeks) my hair was entirely changed to its original color (light brown) and is now free from dandruff and quite moist. I have had my hair cut five or six times since the change, and have never seen anything like white hair starting from the roots, and it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish or ask.

Yours, &c., ——.

July 1, 1854.

GARDNER, Me., June 22, 1855.

Mr. Dyer: Dear Sir—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as grey as a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours, &c.,
DANIEL N. MURPHY.

ST. LOUIS, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular medicines of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted.

A. O. WILLMANSON,
128 Second Street.

ST. LOUIS, June 22, 1853.

Prof. Wood:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months ago, very grey; and after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently oiled. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

I am, sir, yours, &c.,
H. L. STEWART.

DR. WEAVER'S

CANKER & SALT RHEUM SYRUP & CERATE.

IT IS AN UNDISPUTABLE FACT THAT the above medicines are the only infallible remedies now before the public for cutaneous Eruptions, Salt Rheum, Erysipelas, Sore Legs, Ulcers, Old Fever Sores, Scald Head, Scorbutic Eruptions, &c., &c.

Cases that the most eminent Physicians have despaired of relieving, immediately yielded to their curative powers, and when used in accordance with the printed directions, which accompany each bottle, the Syrup and Cerate combined eradicates any of the above named diseases, and leaves the sufferer without a blemish. These medicines are too well known to require anything more than a plain statement of facts. The joyful intelligence is reaching us daily from East, West, North and South, of the wonderful cures they are preforming.

See what is said by those who have used these medicines:

The Rev. Samuel Henry, of Palmer, Mass., says, "they have done me more good than all the other medicines I have used for Erysipelas;"

Capt. William Vail, of the steamer Granite State, says: "they have cured my daughter of Salt Rheum and Scald Head of six years' standing. She was literally covered with sores; is now perfectly cured by the use of the Syrup and Cerate."

Dr. A. J. Johnson, of North Wardsboro, Vt., says, "a Scrofulous diease of the hip joint, and Scald Head in the same child, have been cured by the Syrup and Cerate."

Rev. August Bolles says "it has cured the Salt Rheum in my leg."

J. Hatfield Fraser, Esq., editor of the Somerset Whig, Somerville, N. J., says "my mother has been completely cured of a severe case of Tetter of long standing, that had defied the skill of the best Physicians."

Hon. Joel Loomis, of East Lyme, Conn., says, "I was completely cured of Erysipelas in my legs, after a council of the best Physicians in the County had pronounced the disease incurable, (at my age which was seventy-eight years, but Weaver's Syrup and Cerate did the work at once."

Elias Latham, Esq., of Orient, Long Island, N. Y., says, "I hardly know how to express my gratitude to you and your medicines. I have been afflicted for more than thirty years with Salt Rheum in its worst form. I tried several Physicians in New York, Brooklyn and Greenport. I have dieted and taken medicines enough to float a pretty large boat, but they did me no good. I have taken your medicines one year, and am now able to work and sleep without an ache or a pain, and my neighbors say I am the sprightliest man on the Island."

The Rev. J. S. Swan, of New London, says, I have used the Syrup and Cerate in my family for more than a year and I consider it completely adapted to sustain the high reputation that is claimed for it. I have seen it used in a number of cases for Salt Rheum and Erysipelas, with entire success.

Ask Seth Prisbery, of Taunton, Mass., what the medicines will do; ask William Barber, of Three Mile Bay, Jef Co., N. Y., what the syrup has done for him; ask G. F. & W. H. Boynton, of Perkinsville, Vt.; ask F. L. Kent, of Chicago, Ill; ask Martha Cottle, of Martha's Vineyard, Mass; ask Wm F. Kealdes, or Wm P. Benjamin, Esqs., of New London; ask Dr. H. M. Murdock, of Pulaski, N. Y; ask J. C Smith, of Brooklyn N. Y., who was cured of Scrofula, after losing his leg by the disease, and suffering for years, has been perfectly cured by the use of the Syrup & Cerate; ask Curtis Burrough, of Shelby, N. Y., who has been cured of a severe case of Salt Rheum; ask Chas. Akin of Hume, N. Y., what the Syrup and Cerate will do for sore legs; ask Winslow and Slafter, Merchants, Virgil, N. Y. what it will do for Fever Sores. In a word, ask every body who has ever tried these wonderful medicines, and the answer will be the same—THEY CURE.
